Mohammad Al-Najjar

Junior Software Engineer | Full-Stack Developer

- **Phone:** +962 79 716 9202
- **Email:** alnajjarmohammad00@gmail.com
- **LinkedIn:** linkedin.com/in/mohammad-alnajjar04
- **GitHub:** github.com/mohammadalnajjar04
- **Address:** Jordan
- **Nationality:** Jordanian
- **Date of birth:** 2004

SKILLS

Programming Languages
C# | JavaScript | Java | PHP | Python | C | C++

Web & Frontend
HTML5 | CSS3 | JavaScript (ES6+) | React.js | Bootstrap | Tailwind CSS

Backend & APIs
Node.js | Express.js | RESTful APIs | JWT Authentication

Databases
PostgreSQL | MySQL | Oracle SQL | PL/SQL | SQLite | Database Design

Mobile Development
Android Studio | Java | XML | SQLite

Software Engineering
OOP | Data Structures | Algorithms | SDLC | Problem Solving | API Testing | Debugging | Automated Testing

Development & Testing Tools
Git | GitHub | VS Code | Postman | Thunder Client | Swagger/OpenAPI | SQL Developer

AI-Assisted Development
GitHub Copilot | Cursor | ChatGPT | Claude | MCP

LANGUAGES

- **Arabic** - Native
- **English** - Professional working proficiency

CERTIFICATES & ACHIEVEMENTS

- **PCEP – Certified Entry-Level Python Programmer** | Python Institute (2026)
- **Python Essentials 1** | Cisco Networking Academy (2026)
- **IEEE Jordan AI Modeling Hackathon 1.0** | Participant (2025)
- **Web Development Training (36 Hours)** | Jadara University (2024)
- **InfoSec & Linux Fundamentals (40 Hours)** | DevSec Academy (2024)
- **Droidcon Amman Conference & Hackathon** | Attendee (2024)

TOP HIGHLIGHTS

- **Full-Stack Developer Trainee** at Dalil Information Technology, gaining hands-on experience in modern full-stack development, **2026**.
- **Field Training Intern** in Android mobile application development at Irbid District Electricity Company (IDECO), **2026**.
- **Bachelor of Science in Computer Science** from Jadara University with a grade of **86/100 — Excellent**, **2026**.
- **Strong foundation** in C#, OOP, PostgreSQL, SQL, database design, and web application development.
- **Proactive, fast-learning developer** with strong analytical, problem-solving, teamwork, and continuous-learning skills.

EXPERIENCE

Full-Stack Developer Trainee (07/2026 - Present)

Dalil Information Technology – Jordan

Top contributions:
- Participating in an intensive Full-Stack Development internship focused on building real-world web applications and applying modern software engineering practices.
- Developing end-to-end application features by integrating responsive front-end interfaces with C# back-end logic and PostgreSQL relational databases.
- Applying Object-Oriented Programming, clean code principles, Git-based version control, debugging, and collaborative development workflows across hands-on projects.

Training stack: C#, PostgreSQL, SQL, OOP, HTML5, CSS3, JavaScript, Git | Roadmap: Bootstrap, RESTful APIs, Angular.

Field Training Intern (02/2026 - 06/2026)

Irbid District Electricity Company (IDECO) – Jordan

Top contributions:
- Gained hands-on training in Android application development using Java, XML, and SQLite, focusing on user interface design, database integration, and mobile application fundamentals.
- Collaborated with supervisors and technical teams while applying practical software engineering concepts.
- Enhanced skills in mobile development, troubleshooting, database integration, and corporate communication.

Tech stack: Android Studio, Java, XML, SQLite.

PROJECTS

TaskPilot – Task & Project Management System (2026)

Personal Full-Stack Development Project | GitHub

Top contributions:
- Developed a full-stack task and project management platform with responsive dashboards and collaborative workflows.
- Built RESTful APIs with JWT authentication, PostgreSQL integration, and input validation.
- Implemented task tracking, project members, notifications, comments, and file attachments.
- Developed automated backend tests and documented APIs using Swagger/OpenAPI.

Tech stack: React, JavaScript, Node.js, Express.js, PostgreSQL, JWT, Swagger, Git.

AuraJob – Job Board & Recruitment Management System (2026)

Personal Full-Stack Development Project | GitHub

Top contributions:
- Developed a full-stack recruitment platform connecting job seekers and employers with role-based dashboards.
- Implemented job posting, advanced search, application tracking, saved jobs, and real-time-like AJAX interactions.
- Designed a relational MySQL database and implemented secure authentication, CSRF protection, and AES-256-GCM encryption.

Tech stack: PHP, MySQL, JavaScript, HTML5, CSS3, AJAX, OOP, Git.

AI-Based Agricultural Supply Chain Web Application (2026)

Graduation Project (Capstone) | GitHub

Top contributions:
- Built a centralized web application to streamline interactions between farmers, transporters, and distributors.
- Designed dynamic user dashboards, secure authentication workflows, and structured relational database schemas.
- Integrated AI-assisted decision-support modules for price prediction and logistics optimization.

Tech stack: PHP, JavaScript, HTML5, CSS3, SQL, MySQL, AI algorithms.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science (2022 - 2026)

Jadara University – Irbid, Jordan
Grade: Excellent GPA (86/100)

Core Competencies:
Software Engineering, Object-Oriented Programming, Data Structures, Algorithms, Relational Databases, Web Development, Networks, and Operating Systems.
