

Mohammad Al-Najjar

Software Engineer

Phone: +962797169202
Email: alnajjarmohammad00@gmail.com
LinkedIn: linkedin.com/in/mohammad-alnajjar04/
GitHub: github.com/mohammadalnajjar04
Address: Jordan
Nationality: Jordanian
Date of birth: 2004

SKILLS

Programming Languages

C C++ C# Java Python JavaScript PHP

Web & Frontend

HTML5 CSS3 JavaScript (ES6+)

Databases

Oracle SQL PL/SQL MySQL Database Design

Mobile Development

Android Studio Java XML SQLite

Fundamentals

OOP Data Structures Algorithms SDLC Problem Solving

Version Control & Tools

Git GitHub VS Code SQL Developer

AI-Assisted Development

MCP Servers Cursor GitHub Copilot Vibe Coding ChatGPT / Claude

LANGUAGES

- Arabic - Native
- English - Professional working proficiency

CERTIFICATES & ACHIEVEMENTS

- Claude Code 101 | Anthropic (2026)
- Claude 101 | Anthropic (2026)
- PCEP – Certified Entry-Level Python Programmer | Python Institute (2026)
- Python Essentials 1 | Cisco Networking Academy (2026)
- IEEE Jordan AI Modeling Hackathon 1.0 | Participant (2025)
- Web Development Training (36 Hours) | Jadara University (2024)
- InfoSec & Linux Fundamentals (40 Hours) | DevSec Academy (2024)
- Droidcon Amman Conference & Hackathon | Attendee (2024)

TOP HIGHLIGHTS

- Full-Stack Software Engineer Trainee undergoing intensive development training at Daleel Academy, 2026.
- Field Training Intern in mobile application development at Irbid District Electricity Company (IDECO), 2026.
- Bachelor's degree in Computer Science with Excellent GPA (86/100) from Jadara University, 2026.
- Strong foundation in backend engineering, database systems (Oracle SQL, MySQL, PostgreSQL), and web application development.
- Proactive, fast-learning developer with strong analytical, problem-solving, and teamwork skills.

EXPERIENCE

Full-Stack Developer Trainee

(07/2026 - Present)

Daleel Academy – Jordan

Top contributions:

- Enrolled in an intensive hybrid training program focused on full-stack web application development and modern engineering practices.
- Developing functional web applications, connecting responsive front-end interfaces with server-side logic and relational databases.
- Applying clean code principles, OOP patterns, and Git version control in collaborative team environments.

Tech stack: HTML5, CSS3, JavaScript, PHP, C#, SQL Server, PostgreSQL, Git.

Field Training Intern

(02/2026 - 05/2026)

Irbid District Electricity Company (IDECO) – Jordan

Top contributions:

- Assisted in designing and developing a customer service mobile application within a real-world enterprise infrastructure.
- Collaborated with supervisors and technical teams while applying practical software engineering concepts.
- Enhanced skills in mobile development, troubleshooting, database integration, and corporate communication.

Tech stack: Android Studio, Java, XML, SQLite.

PROJECTS

AI-Based Agricultural Supply Chain Web Application

(2026)

Graduation Project (Capstone)

Top contributions:

- Built a centralized web application to streamline interactions between farmers, transporters, and distributors.
- Designed dynamic user dashboards, secure authentication workflows, and structured relational database schemas.
- Integrated AI-assisted decision-support modules for price prediction and logistics optimization.

Tech stack: PHP, JavaScript, HTML5, CSS3, SQL, MySQL, AI algorithms.

Customer Service Mobile Application

(2026)

Field Training Project – IDECO

Top contributions:

- Designed and built Android UI components (using XML & Java) and integrated SQLite for offline data storage and localized synchronization to handle customer inquiry modules.

Tech stack: Android Studio, Java, XML, SQLite.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

(2022 - 2026)

Jadara University – Irbid, Jordan
Grade: Excellent GPA (86/100)

Core Competencies:

Software Engineering, Object-Oriented Programming, Data Structures, Algorithms, Relational Databases, Web Development, Networks, and Operating Systems.
